

Project Ready for School provides free children’s books, developmental checkups and other resources to parents and caregivers of children birth through age five. Thanks to generous donations, the books and checkups are absolutely free! Children enrolled in the program receive one free book every month in the mail and parents are encouraged to take advantage of annual developmental “checkups” to help gauge their child’s developmental progress.

Your co-workers with a child in their life under five years old can sign up for this free program! Please complete this form if you would like a BOOK SIGNUP event at your company. Please return this form to your United Way staff representative (via email or fax) *at least* one week prior to date of event (or earlier if possible). Fax: 423-265-8598
